

ASSEMBLY INSTRUCTION

MODEL # 32030/2

NOTE: Please consult a qualified electrician if you are not certain of the installation.

CAUTION: Before starting the installation, disconnect the power by turning off the circuit breaker or by removing the fuse at the fuse box.

1. Attach crossbar to junction box using 2 outlet box screws.
2. Twist stripped ends together with pliers, black to black (power) and white to white (neutral). Snip ends. Cover the connections using the wire connectors provided with the fixture. Tie the ground wire from outlet box and from fixture to the green ground screw on the crossbar.
3. Place fixture body to the wall by aligning the protruding crossbar all the way through the wall plate and tighten the fixture with two cap nuts provided.
4. Place glass bobeches and glass to the sockets, and then tighten with socket rings.
5. Install bulbs (not included). Only use bulb of the specified type and maximum rated wattage or less.
6. Turn on the power and you can enjoy your new light.
