

ASSEMBLY INSTRUCTION

MODEL # 32034

NOTE: Please consult a qualified electrician if you are not certain of the installation.

CAUTION: Before starting the installation, disconnect the power by turning off the circuit breaker or by removing the fuse at the fuse box.

1. Unscrew the screw collar loop from nipple.
2. Attach mounting strip to junction box using 2 mounting screws.
3. Weave electrical wires and ground wire through loop. Screw loop into the nipple on top of fixture body.
4. Using two pliers, twist open one link at the end of the chain. Hook it to the loop and close the link. Place a piece of cloth between the pliers jaws and the chain link to prevent scratching the link finish.
5. Thread the screw collar loop to the nipple of the mounting strap. Place the loop ring and canopy over the chain on the fixture.
6. Weave the fixture wires up through the chain links, through the screw collar loop, and through the nipple in the mounting strap. Note that the copper ground wire must be woven through every third link of chain. Position both the outlet box supply wires and the fixture wires outside of the outlet box to facilitate connection.
7. Twist stripped ends together with pliers, the wire with writing on it to the power wire (black) and the wire without writing on it to neutral wire (white). Snip ends. Cover the connections using the wire connectors provided with the fixture. Tie the ground wire from outlet box and from fixture to the green ground screw on the mounting strip. After connection is complete, carefully position wires back inside outlet box.
8. Place the canopy over the nipple all the way to the ceiling and tighten the loop ring onto the screw collar loop until the canopy is firmly held against the ceiling.
9. Place glass bobeches and glass to the sockets, and then tighten with socket rings.
10. Install light bulbs (not included). Use only bulb of the specified type and maximum rated wattage or less.
11. Screw the finial to the nipple underneath the fixture body.
12. Turn on the power and you can enjoy your new light.
